Damping Factor	> 1000	> 1000	> 1000
Max Current Draw	174 A	174 A	174 A

EFFICIENCY

Both the power supply and amplification stages are one of the most efficient ever made, working together to produce greater output with less consumption.

PERFORMANCE

Capable of producing the purest sounds at high power levels, while maintaining harmony at every tone.

ENDURANCE

Combining an innovative engineering project and the finest components available, the **EVO LINE** was made to endure... no matter what. The state of the art protection and failure correction circuitry keeps the amplifier working even in adverse conditions.

REFINED

Brushed Aluminum finish makes this line even more unique, with special input and output connectors to make sure you have the best possible sound.

UNIQUE

Robustness allied to the exclusive technologies developed by our team of engineers assure you incomparable performance and versatility.

INTENSE

Prepare yourself for unique sensations that only a system with powerful and accurate bass can provide.

ABOUT US

Back in the 90's, the electrical engineering student, **JULIANO ANFLOR**, decided to develop a car audio amplifier as a college project. What started as a hobby, turned into a passion, and some years later into the business of his life.

Always innovating and searching for new technologies, **SOUNDIGITAL** has earned its share of the market in a short period of time and has become one of the most prestigious brands in car audio.

SOUNDIGITAL products are sold in over **45 COUNTRIES** worldwide.

TEAM SOUNDIGITAL, the elite group of SounDigital competitors, is the current holder of several important world records in many different organizations such as **dBDrag**, **IASCA** and **MECA**.
